

# An evidence informed platform for developing high performing networks

---

Improving Healthcare International Convention 2015  
Dr Peter Carswell  
University of Auckland  
Synergia Australia ([synergia.com.au](http://synergia.com.au))

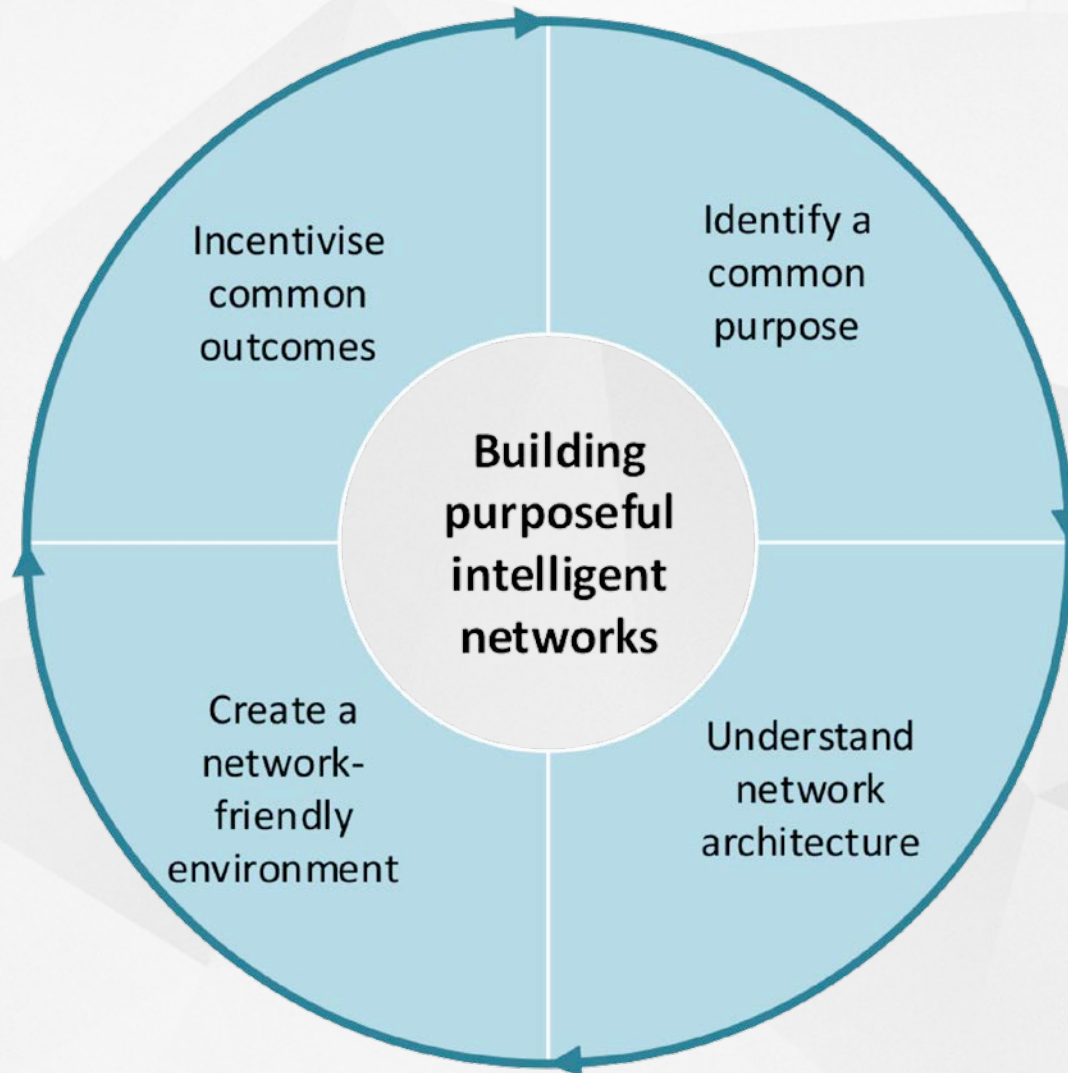

Why does this matter??

---

# The framework of a high performing network

# The evidence based principles

## Network theory

- Advances in anthropology, sociology, psychology, political science, mathematics
- Naturally occurring properties

## Data visualisation principles

- The power of visualisation to get engagement
- Relevance, comparison

## CQI process

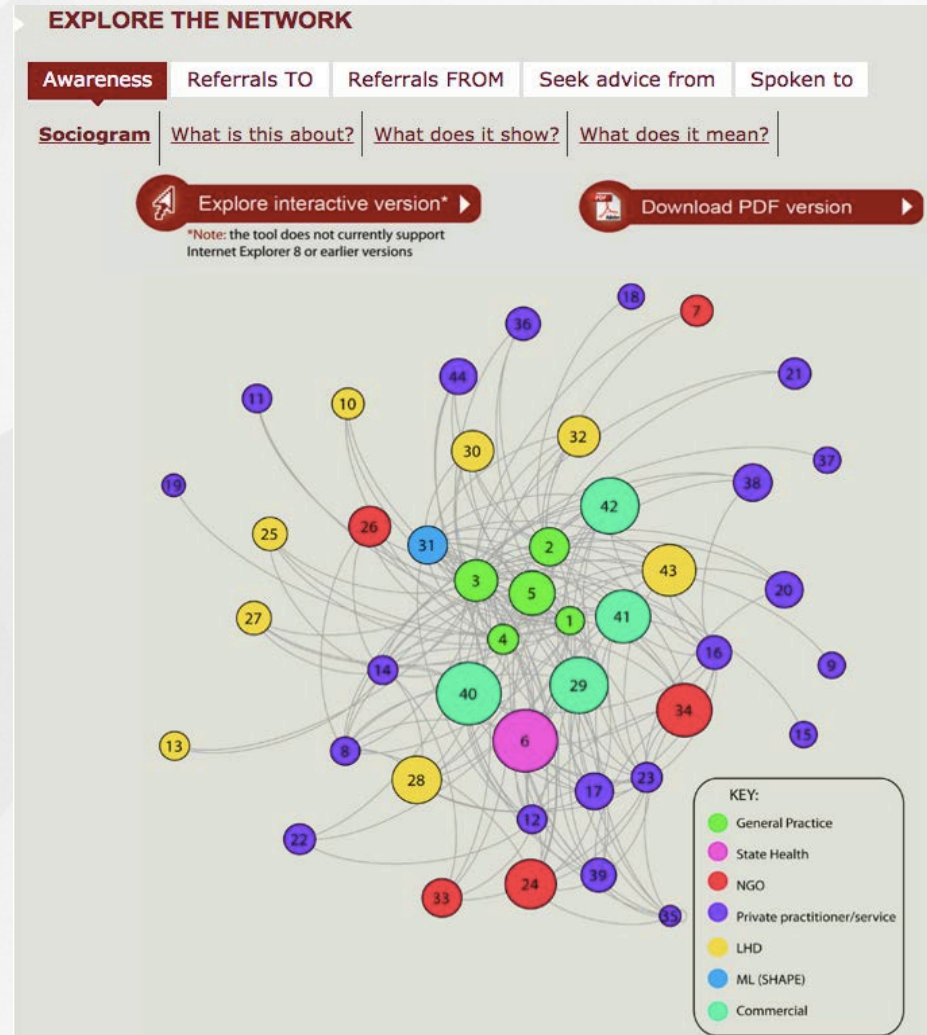

- Focus on developing hypotheses
- Track outcomes
- Share information

## The approach – Primary Care Networks

- Prevention of Chronic Disease
- Web based survey to all stakeholder agencies – those that delivered services
- Social network analysis

# The result

## The approach – Mental Health

- Access to Allied Psychological Services
- Analyse routinely collected data
- Social network analysis
- Geospatial Mapping

# The result
